Summary

- Fast learner and always open to new ideas.
- Highly motivated and goal oriented.
- Good communications skills.
- Works well in a team or solo setting.

Skills

- HTML
- CSS
- JavaScript
- React.JS
- Git/Github
- Visual Studio Code
- API

Projects

Portfolio

Created a portfolio website build using HTML and CSS. It features animations and provides cards and links to all of my other projects.

Weather App

A weather app constructed with HTML, CSS, JavaScript, and the AccuWeather API. Simple and straightforward. Users can search for a city or zip code to acquire the location, temperature, and current condition using the AccuWeather API. Displays changing background images depending on current conditions.

Todo List

Todo list constructed with HTML, CSS and JavaScript

Dinner Decider

Enter the future where machines make all the decisions for you. A simple app for the indecisive.
made with HTML, CSS, JavaScript

Technology

- Audacity.
- Blender.
- Visual Studio Code.
- Microsoft Windows.
- Microsoft Excel.
- Android.
- Git Bash.
- Adobe Premiere.

Education

Self taught

Working and learning a new skill to not only improve my life but to also enjoy what I do for a living has been the most difficult task I've undertaken. To set aside hobbies, social outings, or the easy road and move past complacency in order to achieve something greater.

Highschool diploma

Highland High school

Salt Lake City Utah 84105

Graduation 2013

Hobbies

- 3D modeling
- Computer building
- Video games
- Digital and traditional drawing
